

6 reasons to choose ASC air starters

ABOUT US

We are a front-runner in air starter technologies serving these valuable industries:

- Gas compression & Oilwell drilling
- Marine propulsion & Locomotive engines
- Power generation & Mining equipment

ASC products and services help our customers keep valuable equipment and infrastructure operating at peak efficiency, while reducing operating costs and risks. Our history as an air starter manufacturer spans four decades, and gives us unique understanding of our customer's world and their daily challenges.

Turbine & Vane AirStarters

Remanufactured / Exchange

Spare & Replacement Parts

COMPLETE SOLUTIONS

Quality original equipment grade NEW air starters, or the option of remanufactured/exchange. Spare parts for brands such as TDI, Ingersoll-Rand, ASC, or Caterpillar. Plus expert services and cost saving prices.

MADE IN THE USA

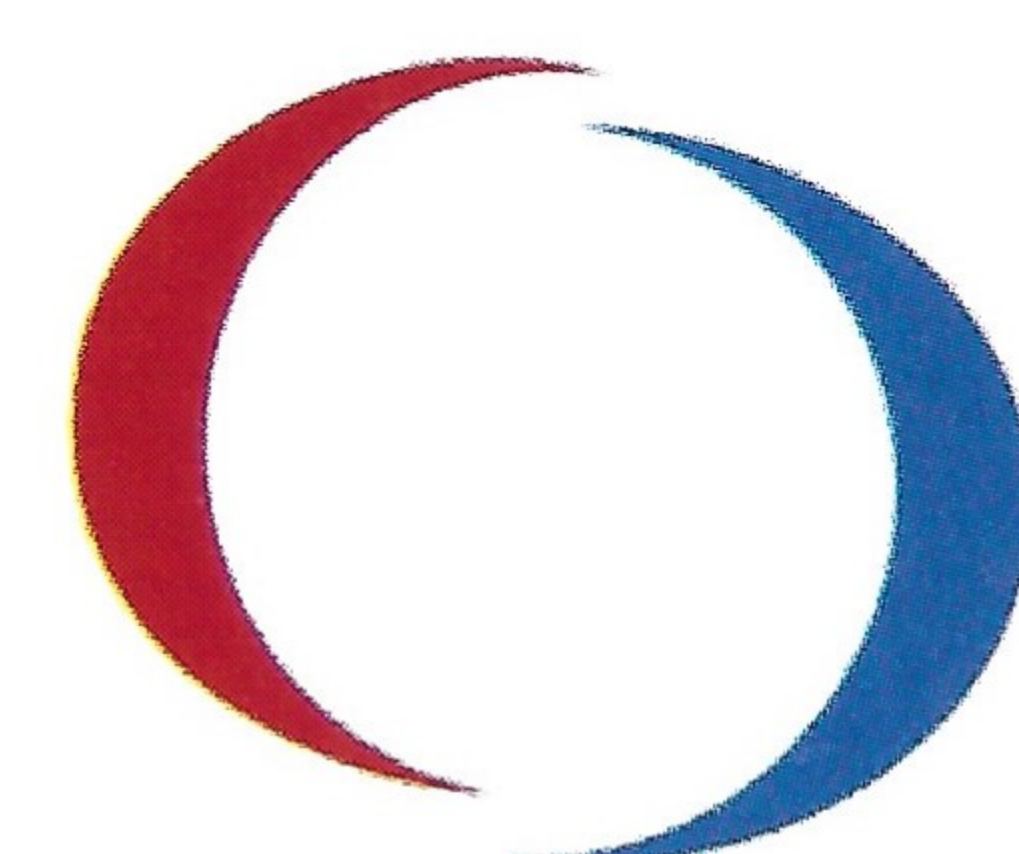

American manufacturing is alive and well at ASC. In fact, we remain one of the only truly made in the United States air starter companies. Made in the USA is more than just a proud slogan. It stands for responsive service, high grade materials, and total hands on control of our manufacturing processes to ensure safety and quality.

OUR PRODUCTS

ASC customers enjoy the convenience of in-stock products and on-time deliveries. ASC starters and spare parts keep your customer's critical equipment operating efficiently, while lowering costs and boosting their profits.

When considering an air starter manufacturer and supplier, choose the company that puts quality, safety and fast-responsive customer service at the front of the line. Choose ASC.
